

# Data Integration Flow: Fusion ERP to Data Lake - Acme Corp

## Overview

This document outlines how reconciled financial data from Oracle Fusion ERP flows into Acme Corp's data lake.

## Steps

Field	Description
Step 1	Extract GL balances and reconciled amounts from Fusion ERP via REST API.
Step 2	Load data into OCI Object Storage in Parquet format.
Step 3	Transform and enrich data in the Silver layer using Spark SQL.
Step 4	Publish curated reconciled summaries in the Gold layer for analytics.

## Security

Access is governed by IDCS roles mapped to OCI IAM policies.
